

# Naturcomplet

SOIL CONDITIONER  
NATURAL HUMIC ACIDS FROM LEONARDITE POWDER

**Naturcomplet** is natural leonardite, selected and treated to provide the maximum amount of humic acids for soils with a low organic matter content. It contains organic iron <sup>++</sup> chelated with humic acids that is of great effectiveness in controlling iron chlorosis and does not contain heavy metals nor chlorine.

It has the EC EcoLabel for the soil improvers category (Reg. no. ES-CAT/003/001/001).

## GUARANTEED CONTENT

Total Organic Matter.....	42,0 % o.g.m.	60 %	o.d.m.
Total Humic Extract.....	42,0 % o.g.m.	60 %	o.d.m.
Humic Acids.....	35,7 % o.g.m.	51 %	o.d.m.
Fulvic Acids.....	6,3 % o.g.m.	9 %	o.d.m.
Iron (Fe).....	1,0 % o.g.m.	1,5 %	o.d.m.
Maximum Moisture.....	30,0 % o.g.m.		
pH (1/2,5).....	4,1		

## USES FOR WHICH IT IS RECOMMENDED

- To provide the soil with a spongy structure
- To improve the effectiveness of mineral fertilizers
- To correct soil mineralization and saline soils
- To increase production and bring forward harvesting dates.

## CROPS FOR WHICH IT IS RECOMMENDED

It is particularly recommended for: extensive horticultural crops, cereals, fruit trees and citrus, lawns and meadows.

## DOSAGE

The recommended dosage varies between 1000 and 1500 Kg/ha/year. This dosage should be increased in soils with low organic matter content, intensive crops, mineralised soils or young soils.

## SOIL IMPROVERS RANGE

The soil is an intricate system of interactions among the elements that constitute it, animals, organic matter and minerals. Soil organic matter, and the particular case of the humic acids, is the bond among all the systems which are going to provide to the soil its fertility.

Leonardite due to its formation process takes millions of years to occur. It is the most effective source to provide soils that contain low levels of organic matter the humic acids they need.

Daymsa, the first European Leonardite producer, transforms in its products a high concentration of humic acids, which acts as a very efficient and easy management tool for growers.
